ALL OVER THE WORLD

Hakkımızda

1975 yılında ağır vasıta yedek parça alanında faaliyete başlayan firmamız; aradan geçen süre zarfında edindiği bilgi birikimini, bijon imalatına başlayarak değerlendirmiş ve kısa zamanda bu alanda hem yurt içinde hem de yurt dışında aranan bir marka haline gelmiştir.

Üretimde kalite ve müşteri odaklı üretim anlayışını, gelişen teknolojinin imkanlarıyla harmanlayan firmamız, 2003 yıllarında tır dorseleri için çeşitli dingiller ve bu dingillerin ekipmanlarının imalatına başlamıştır. Geçmişten gelen imalat tecrübesi ile birlikte kısa zamanda kendi bünyesine dökümhanesini ekleyip 15000 metre karelik alanda son kalite ve hızda üretimlerine devam eden AKKAR Dingil, pazar hedeflerini aşmış ve sektörünün en dinamik firmaları arasında yerini almıştır.

Makine parkurunu her geçen gün yenileyen firmamız, konusunda uzman kişileri bünyesine katarak her alanda çalışmalarına hız vermiş ve bu çalışmalarını da ISO 9001: 2000 Kalite Yönetim Sistem belgesini alarak perçinlemiştir. 2006 yılının başlarında, pazar stratejisini Avrupa'ya açılmak olarak belirleyen firmamız bu konudaki ilk adımını, 71/320/EEC direktifleri doğrultusunda Fren Test Belgesini alarak atmıştır.

Akkar; müşteri memnuniyetini ön planda tutarak zamanında üretim ve teslim garantisini, sizlerin verdiği güven ve güçle birleştirip üretimini teknolojiyle perçinleyecektir.

VİZYONUMUZ

Beklentilerin üzerinde yaratıcı hizmet sağlamaktır.

MİSYONUMUZ

AKKAR DİNGİL misyonu aşağıdaki şekilde tanımlanır;

Müşteri odaklılık prensibi üzerine çalışan,

Sektörünü iyi tanıyan, Teknolojiyi devamlı takip ederek verimliliği artırmak, ürün ve hizmet kalitesi ile müşterilerinin, paydaşlarının, çevrenin ihtiyaç ve beklentilerini karşılayan bir kurum olmaktır.

About us

Started its activities in field of heavy-duty vehicles' spare parts in 1975, Akkar Axle evaluated its knowledge during passing-by time by starting with bolt production and became one of the mostly asked manufacturers at home and abroad in the meantime. By adapting state-of-art technology to its structure and being always focusing on RGD, quality and customer satisfaction, our company started to produce a wide range of axles and equipments for semi-trailers at the beginning of 2003...

Exceeding its market targets and became one of the pioneer companies in its sector in a short while, AKKAR Axle's first priority is customer-oriented production without compromising on quality that was cemented through past years. Upgrading its machine entities day-by-day, our company speeded up its works in all fields by employing the specialist workforce and strengthened its works by obtaining ISO 9001:2000 Quality Manegement System Certificate. Opening up to Europe early 2006 with its marketing strategy, our company initiated its first step by obtaining Brake Test Certificate set on 71/320/EEC regulations.

Dedicated itself to the full customer satisfaction and having full trust and power granted by its clients, Akkar Axle is focused on timely delivery and guarantee combined with goog quality and workmanship.

VISION

AKKAR DİNGİL's vision is to provide innovative service beyond expectations.

MISSION

AKKAR DİNGİL mission can be defined as follows;

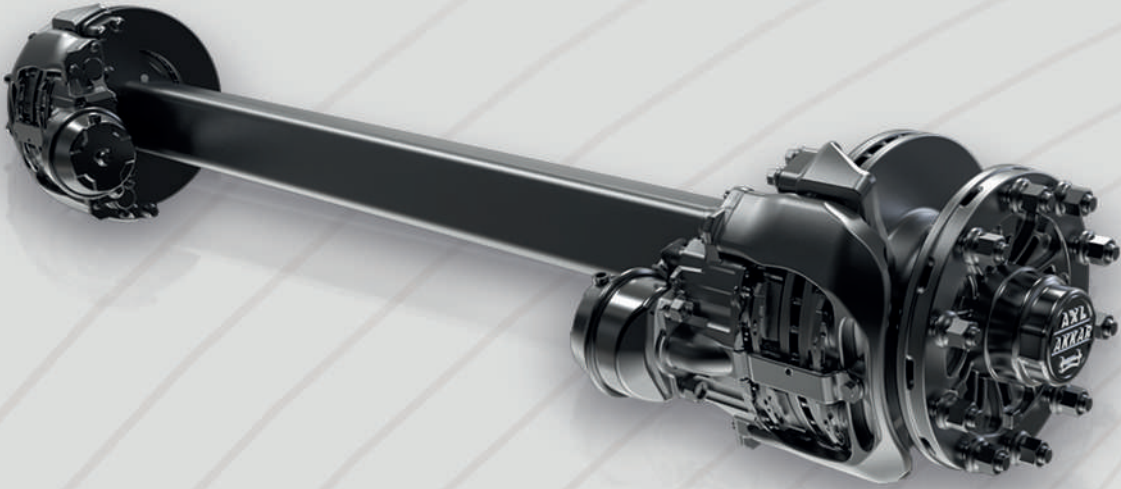

To be customer oriented at the highest level,

To have know-kow on the sector,

To increase the productivity by following constantly technology and to be a corporate that meets the needs and expectations of customers, shareholders and environment with its products and quality services.
